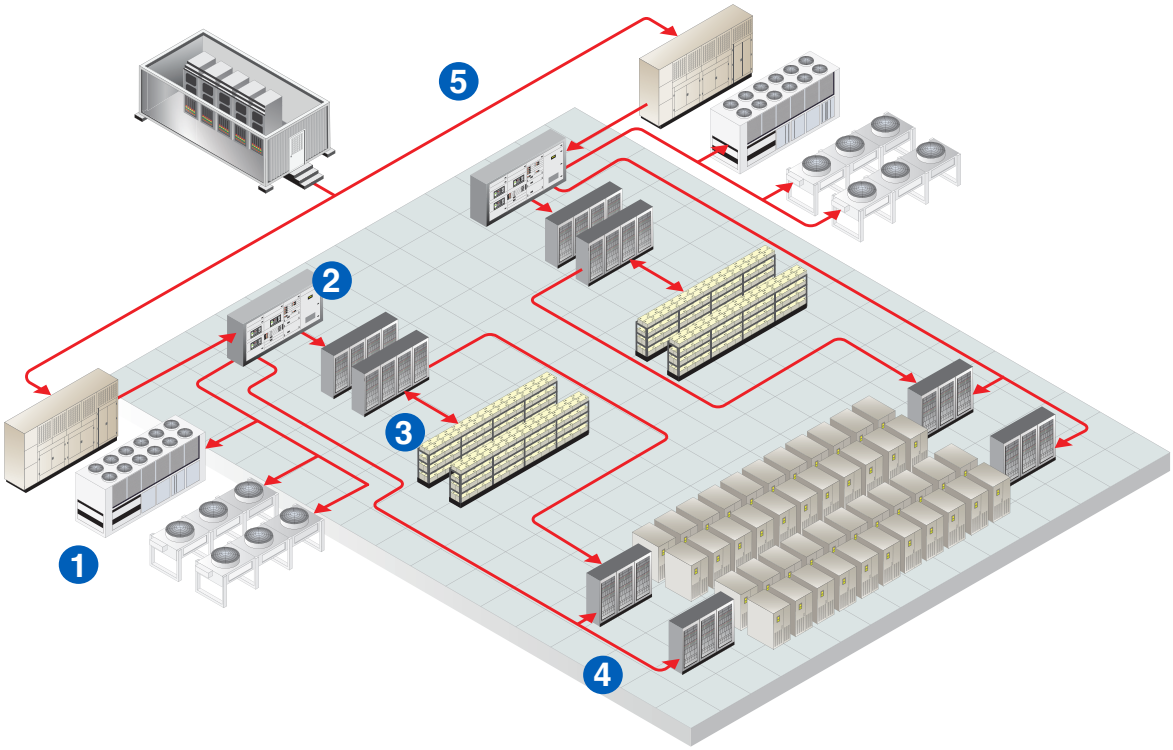
Data Center Solutions
Power & Control Cables

At Marmon Industrial Energy & Infrastructure, we deliver rugged, high-performance cable solutions designed for mission-critical environments like data centers through our brands Rock Tuff®, Rock-Flex® and Kerite® MV-105.

Rock Tuff® and Rock-Flex® cables are engineered to meet UL low smoke, halogen free standards, offering exceptional durability, flexibility, and increased low and high temperature operation due to irradiated crosslinked XLPO insulation, ideal for power and control applications that demand longevity.

Kerite® MV-105 cables offer proprietary discharge-resistant EPR insulation, reducing degradation caused by partial discharge per ASTM D2275 standards. This leads to increased reliability and extended operational life in demanding medium-voltage environments.

With manufacturing in the U.S. and a dedicated engineering team, Marmon IEI ensures responsive support, quality control for North American data center projects.



1 Generators
- Rock-Flex® DLO K
- Rock-Tuff® ZHF & ZHXF

2 Switchgear & Distribution
- Rock-Tuff® XHF

3 UPS System
- Rock-Tuff® ZHF

4 PDU & RPP
- Rock-Tuff® ZHF

5 Medium Voltage
- Kerite® MV 35K
- Kerite® MV 15K
- Kerite® MV 5K
